

## Nelson Labs – Senior Analyst Method Development

### Function:

We are looking for an enthusiastic “Method Developer” to join our team, which is passionate about targeted quantitative methods using chromatography coupled to mass spectrometry. The methods you will develop are essential for Leachables testing of Drug Products.

Your responsibilities:

- Optimizing and testing analytical methods (HS-GC/MS, GC/MS, GC-MS/MS and/or LC-MS/MS) to quantify levels at a specified concentration;
- Designing and testing sample preparation procedures such as liquid/liquid extractions using relevant internal standards;
- Documenting your lab work, results and conclusions;
- Interpreting analytical results;
- Investigating and troubleshooting analytical issues.

Method Development is a team effort involving both lab technicians and project managers. Together, we aim to deliver quantitative analytical methods of high scientific quality. As a team, we also value knowledge sharing and ensure clear documentation and effective communication with the colleagues responsible for Method Validation.

### What do we expect?

- You have a Bachelor's or Master's degree in a scientific field or equivalent through experience;
- You have knowledge of organic chemistry;
- You have hands-on experience with HS-GC/MS, GC/MS, GC-MS/MS, and/or LC-MS/MS;
- You have experience with sample preparation (preferably different extraction techniques);
- You have experience with method development;
- You have good communication skills;
- You are eager to learn and critical;
- You have an active, independent work attitude that is both quality-oriented and solution-oriented;
- You are intrinsically motivated and enjoy working with others;
- Experience in developing quantitative methods is a major asset;
- Experience in a quality environment is a plus, but not decisive.

### What do we offer?

You will be working full-time, but we take a good work-life balance into account by offering flexible working hours.

Your efforts will be rewarded with a competitive salary, supplemented by an attractive package of fringe benefits such as meal vouchers, group -, hospitalization - and outpatient insurance, a lease bicycle, an end-of-year gift, and

more.

Nelson Labs is located in the industrial zone in Haasrode, which means we are easily accessible by car, public transport, and bicycle. If you come by (electric) bicycle, you can also park it safely in our covered bicycle parking area, where you can also charge your electric bicycle!

At Nelson Labs, we know how to combine work and fun! A bike ride with colleagues at the weekend, raising a glass together on Friday to end the working week, participating in our kubb and petanque tournament during the lunch break in the summer months, and our unforgettable staff parties are just a few examples!

Are you interested in this position or would you like more information? Then be sure to get in touch!
